To whom it may concern

REACH is an European Regulation which applies to the substances on its own, or in preparations or articles. REACH is the acronym for Registration, Evaluation and Authorization of Chemicals. REACH came in to force on 1st June 2007 and - as a regulation - took immediate effect in all EU member states.

Our company is well aware of REACH and her responsibilities within the process. We are committed to meet our legal obligation under REACH. Therefore, we hereby confirm that our supplies comply with the imposed legal obligations.

Based on the information provided by our suppliers (regarding Article 33) we can as well confirm that all our supplies do not contain any of the substances specified in the so-called ECHA "candidate list" SVHC-Substances of Very High Concern with a concentration of more than 0.1 % w/w.

We commit ourselves to continuously review the actual ECHA "Candidate List" for changes, additions and updates. We further commit ourselves - if so required - to act in fully compliance with current REACH regulations.

We trust to have informed you accordingly. Should you have any further questions regarding the above, please do not hesitate to contact us.

Yours sincerely,

G. de Wilde
QMS & Operations Manager

K.M. Durenkamp-González
QA Division
